ERATOSTHENES CENTRE OF EXCELLENCE

One (1) position Back End Software Developer

ERATOSTHENES Centre of Excellence (www.eratosthenes.org.cy) of Cyprus University of Technology (www.cut.ac.cy) invites applications for one (1) position of Back End Software Developer in the Big Earth Data Analytics Department. The position is open either on a full-time or part-time employment basis.

ERATOSTHENES Centre of Excellence is an autonomous centre of excellence with Cyprus University of Technology as its sole stakeholder, specialising in earth observation, space technology and geospatial analysis. Cyprus University of Technology has a 13-year experience in earth observations and geospatial analysis. Through the "EXCELSIOR" H2020 Teaming Project (<https://excelsior2020.eu/>), ERATOSTHENES CoE aspires to become a Digital Innovation Hub for Earth Observation and Geospatial Information by offering knowledge, responsible research, open innovation and application services capable of sustaining Cyprus' development. ERATOSTHENES Centre of Excellence aspires to actively contribute to the European Research Area (ERA) priorities in Atmosphere and Climate, Resilient Societies and Big Earth Data Analytics, as well as to become the reference Earth Observation/Geoinformation Centre for research and innovation in the Eastern Mediterranean, Middle East and North Africa (EMMENA) region.

A core activity of ERATOSTHENES Centre of Excellence is to conduct high caliber, state-of-the-art research, both basic and applied. A central task is to acquire research funding for the Centre, to provide facilities to the researchers, and to support them to acquire funding for their research independently and via international and local collaborations.

Description of the Position

The successful candidate will be assigned to the technical workforce of the Centre and will be responsible for developing software regarding the Centre's activities and

supporting researchers at different research projects and also be responsible for the maintenance of the software of the Centre..

Duties and Responsibilities

- Interpreting requirements into working code;
- Developing a wide variety of applications to support our Centre;
- Developing, testing and implementing code to departmental standards;
- Providing technical support on software development to colleagues;
- Maintaining the software developed in-house;
- Producing documentation and ensuring proposed solutions are fit for purpose
- Support different research projects and activities;
- Working closely with other systems teams and front end developers to ensure successful projects;
- Support the Living Labs of the Centre.

Qualifications

- BSc Degree in Computer Science, Informatics, Computer Engineer, Software Engineering, or relevant field;
- Proven work experience of at least 1-3 years as a Software Developer with a minimum of 1-3 years relevant experience (must include also experience as Web Developer/Engineer) in a team environment; Design, build, and support high performance, scalable, and innovative back end systems/services; develop backend APIs, implement system instrumentation, and provide documentation;
- Good Knowledge of node.js, Javascript, Python and Java and/or C# and/or Golang;
- Good knowledge of database systems and scripting tools including PostgreSQL and SQL Server;
- Experience on GitHub is desirable;
- Experience with mobile device programming (iOS, Android) is a plus;
- Holding an MSc on relevant field to Computer Science will be considered an advantage;
- Knowledge of Containers (Docker, Kubernetes etc.) will be considered an advantage;
- Previous experience with Artificial Intelligence and Data Analytics will be considered an advantage;

Profile and Personal Attributes

- Passion for ERATOSTHENES Centre of Excellence mission;
- Ability to work effectively under pressure, to prioritise tasks and to schedule activities effectively;
- Innovative;
- Adaptability, strong interpersonal skills;
- Strong troubleshooting and critical thinking skills;
- Strong attention to detail, good organization and planning skills;

- Trustworthy and committed with high integrity;
- Self-motivated to achieve targets;
- Physical presence in the designated area of employment of the Centre in Cyprus.

The appointment will be for a period of two years (24 months) with the prospect of renewal for another two years. The annual gross salary for the (full-time) position will range from €18250.39 to €29592.08, depending on qualifications and experience. It is noted that there is provision for 13th salary which is proportionally incorporated in the monthly remuneration.

Interested candidates must submit their application comprising of all documents listed below via email to vacancies@eratosthenes.org.cy, entering in the subject line: “*Application for Software Developer - ERA-SDBEDA-32*” no later than Tuesday 21 February 2023 at 14.00 CYPRUS TIME, which is the deadline for the submission of the applications.

1. A cover letter in English clearly specifying availability date for full time employment;
2. Scanned or electronic copies of degree certificates and relevant qualifications. True copies of the originals will be requested for the shortlisted candidates;
3. Detailed *Curriculum Vitae* (including contact details);
4. Full contact details of three referees (including their postal and email address). For the shortlisted candidates, the referees may be asked to submit Letters of Reference.

If you have previously applied for any position at ERATOSTHENES Centre of Excellence, a new application is required.
